

GUARANTEED

Our fencing comes with a transferable warranty.

DURABLE

Your fence will not peel, flake, blister, corrode or rot ever.

MAINTENANCE - FREE & COST EFFECTIVE

For about the same price as a quality wood fence, you get a product that will look great for years to come without the need to sand, paint, stain or seal.

STRONG

Our fencing is built using a high quality, proprietary vinyl specifically designed for the kind of UV and wind exposure we experience here in Southern California.

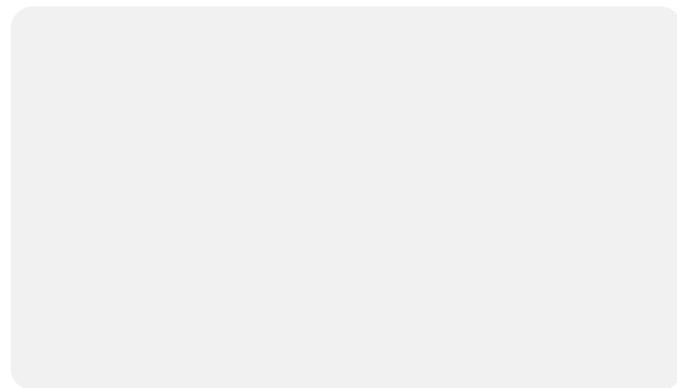

CUSTOM MADE

We do all fabrication in-house which means we build *your* fence to suit *your* site, *your* needs and *your* preferences. And with the option of smooth or grain finish, numerous color choices, post cap options, hinge and latch options, picket and lattice designs, your fence can reflect your unique style.

BEAUTIFUL

All of this adds up to a beautiful fence or patio cover you can simply and easily enjoy for decades to come.
